

AIM Portfolio Service

GBIM

— GORE BROWNE —
INVESTMENT MANAGEMENT

QUARTERLY FACTSHEET

all data as at the 31st March 2021

Portfolio Objective

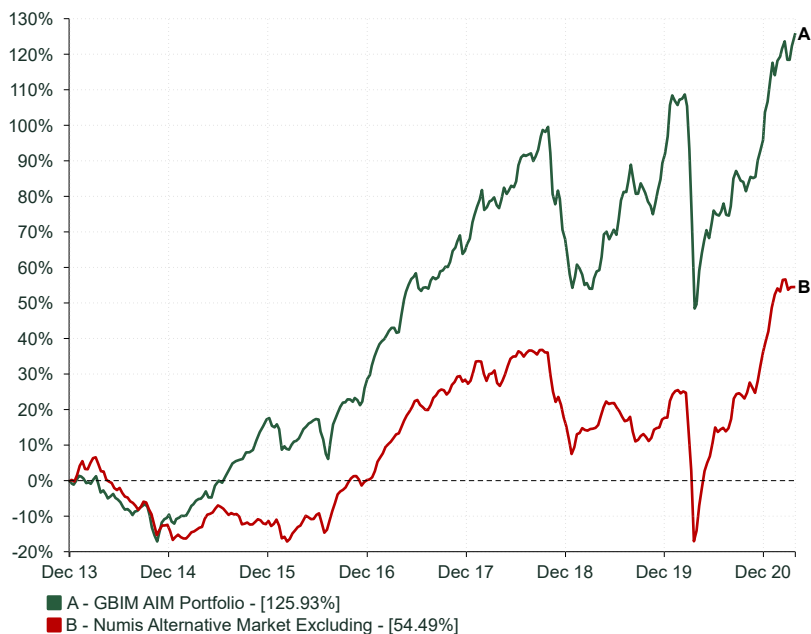

To achieve capital growth over the medium to long term from a portfolio of AIM-listed companies which we reasonably believe qualify for Business Relief.

Manager Commentary

The portfolio rose by 3.46% over the quarter. The UK market continued to be positively influenced by the vaccine rollout and the anticipated return to more normal trading conditions and it has been very encouraging to see how all of our companies have successfully managed their way through these very difficult times. There was only one transaction in the period being the reinvestment of the IMI MOBILE take over proceeds into Johnson Service Group. We sold this stock in May last year as it was in the eye of the pandemic storm providing laundry services to many sectors heavily impacted by Lockdown such as hospitality. Management have however proved themselves with an equity raise that strengthened the balance sheet and some targeted cost cutting so they are now in a strong market leading position as the sectors in which they operate gradually reopen. Since the quarter end we have sold Gooch and Housego and reinvested into Judges Scientific and we will write on this at the next report.

Although you will see that we provide in the performance figures a comparison with the relevant benchmark (Numis UK Smaller Companies) we do not aim to track this index. Our investment process is extremely disciplined and designed to reduce risk in what is a high risk area of the market. The benchmark index is distorted by a small number of very large companies that do not fit into our investment process and as such we must point out that at times we will see performance that is significantly different to the index.

Representative Performance Since Launch (%)

Representative Cumulative Performance (%)

	6 Mths	1 Yr	3 Yrs	5 Yrs	Launch
Portfolio	23.13	50.31	27.78	100.57	125.93

Bertie Gore Browne Director
Bertie is a co-founder of Gore Browne Investment Management and has been managing private client and charity portfolios since 1987. Bertie is a Fellow of the CISI.

Key Details

Benchmark	Numis Alternative Markets Excluding Investment Companies
Launch date	28 November 2013
TER	2.09%
Holdings	22
Historic yield	0.72%

Note that each client's portfolio is treated separately. Whilst stocks held are likely to be similar across client portfolios, weightings or levels of cash held within each account will vary. This is an actual portfolio which is the most representative example and provides the most accurate representation of GBIM's AIM Portfolio Service.

Portfolio Benefits

- ✓ All investments in the Service we reasonably believe should qualify for business relief and be exempt from IHT (Inheritance Tax), if they are held for two years and at the time of death.
- ✓ The Portfolio Service allows access to smaller and often under researched companies, with potential for strong capital growth.
- ✓ Our Portfolio Service has made a benchmark-beating return since inception.

Key Risks

- ⊗ Investors' capital is at risk and they may not get back the full amount that they invest.
- ⊗ We cannot guarantee that every investment will qualify for Business Relief.
- ⊗ Most of the investments in this portfolio are in smaller companies' shares. They may be more difficult to buy and sell and their share price may fluctuate more than that of larger companies.

Glossary

AIM – Alternative Investment Market:

Most securities listed on the AIM market qualify for Business Relief. Securities listed on AIM are generally smaller companies and are therefore higher risk.

Business Relief:

If you own a private business it would qualify for Business Relief, similar to receiving Agricultural Relief on a farm. As such the value of that business would be outside of your estate for Inheritance Tax calculations. Inheritance Tax is currently levied at 40% over and above any applicable allowances at the time of death. You can therefore invest in a number of AIM-listed securities which, if held for more than two years, may qualify for Business Relief. The potential tax saving for your beneficiaries could potentially therefore be 40% on the value of your AIM-listed securities, assuming the two-year qualifying period has been achieved.

ISA – Individual Savings Account:

Since 2013 you are able to invest in AIM-listed securities within your ISA so this provides further tax advantages as any crystallised gains would not be subject to Capital Gains Tax and any income would not be subject to higher-rate tax.

TER - Total Expense Ratio:

This includes GBIM's Investment Management Fee, the Custody Fee, and commissions on dealings at both initiation and switching 20% of the portfolio per year. This also incorporates VAT which is payable on the Investment Management Fee.

Total Return:

A measure which incorporates the reinvestment of dividends over time.

Yield:

Calculated by dividing each company's latest financial year's dividends by the current market value of the firm, then multiplying by 100 to arrive at a percentage figure.

IMPORTANT INFORMATION

This document is for information only. If you are in any doubt of the suitability of an investment for your particular circumstances, you should contact an investment manager for tailored advice. Tax treatment depends on individual circumstances and may be subject to change in the future. GBIM Limited points out that past performance is not a guide to future performance and that the value of investments, and the income derived from them, may fall as well as rise and investors may not get back the full amount originally invested.
