Glossary

AIM – Alternative Investment Market:

Most securities listed on the Alternative Investment Market qualify for Business Relief. Securities listed on AIM are generally smaller companies and are therefore higher risk.

Business Relief:

If you own a private business it would qualify for Business Relief, similar to receiving Agricultural Relief on a farm. As such the value of that business would be outside of your estate for Inheritance Tax calculations. Inheritance Tax is currently levied at 40% over and above any applicable allowances at the time of death. You can therefore invest in a number of AIM-listed securities which, if held for more than two years, may qualify for Business Relief. The potential tax saving for your beneficiaries could potentially therefore be 40% on the value of your AIM-listed securities, assuming the two-year qualifying period has been achieved.

ISA – Individual Savings Account:

Since 2013 you are able to invest in AIM-listed securities within your ISA so this provides further tax advantages as any crystallised gains would not be subject to Capital Gains Tax and any income would not be subject to higher-rate tax.

TER - Total Expense Ratio:

This includes GBIM's Investment Management Fee, the Custody Fee, and commissions on dealings at both initiation and switching 20% of the portfolio per year. This also incorporates VAT which is payable on the Investment Management Fee.

Total Return:

A measure which incorporates the reinvestment of dividends over time.

Yield:

Calculated by dividing each company's latest financial year's dividends by the current market value of the firm, then multiplying by 100 to arrive at a percentage figure.
